Preface

This section does not form part of the policy and is for information purposes only.

This Policy will guide the Council, as the “Licensing Authority” when considering applications under the Town Police Clauses Act 1847, Town Police Clauses Act 1889 and Local Government (Miscellaneous Provisions) Act 1976, as amended, which places on West Devon Borough Council the duty to carry out their licensing functions in respect of hackney carriages and private hire vehicles.

This is a general guide that has been prepared for the assistance and guidance of Hackney Carriage and Private Hire Drivers, Vehicle Proprietors, Private Hire Operators and any other person with an interest in Hackney Carriage and Private Hire licensing in the West Devon area. It does not stand on its own and West Devon Borough Council, its Officers and Agents, do not accept any responsibility for any loss caused by any person acting as a result of the material enclosed here.

Foreword

Hackney carriages and private hire vehicles are an important mode of local transport, and as such have a specific role to play in a united transport system. They are able to provide safe, secure and comfortable transport, providing an on-request door-to-door service in various circumstances, including where public transport may not be available (e.g. in very rural areas), or for those with mobility difficulties.

The aim of the Policy is to control the provision of a robust taxi and private hire licensing system, which makes sure the public travel safely, receive a good level of service and drivers and operators are not overloaded by unnecessary conditions.

In setting out its Policy, the Licensing Authority seeks to promote the following objectives:

- **The safety and health of drivers and the public;**
- **Vehicle safety, comfort and access;**
- **To prevent crime and disorder and to protect the public;**
- **To encourage environmental sustainability.**

Public safety is vital, and the authority seek to make sure through licensing that all taxi and private hire vehicles are fit for purpose and that their drivers and/or operators are fit and proper persons.

This policy provides information and guidance to licence applicants, clarity for licensed vehicle owners, drivers and operators and the public as to the way that the Licensing Authority will undertake its licensing functions. In addition, the policy document looks to help the Licensing Authority in reaching a decision on a particular application or a particular enforcement issue, setting out those matters that will normally be taken into account.

This Policy will be reviewed periodically to take into account information gathered over a period of time, together with the outcomes of any updates in legislation or associated government guidance. Supporting appendices to the Policy may be updated from time to time, and therefore, applicants and all other interested persons are advised to contact the Licensing Department for up-to-date information.

In the preparation and publication of this policy the Licensing Authorities have had regard to the following:

- Guidance issued by the Department for Transport ("Taxi and Private Hire Vehicle Licensing: Best Practice Guidance" – Edition March 2010).
- Department for Transport Statutory Taxi and Private Hire Vehicle Standards
- Institute of Licensing Guidance on Determining the Suitability of Applicants and Licensees in the Hackney and Private Hire Trades
-
- Law Commission Taxi and Private Hire Services Paper No 347 – May 2014
- Local Government Association Taxi and PHV Licensing Councillor's Handbook (England and Wales) – August 2017
- LGA example Taxi and PHV Licensing Criminal Convictions' Policy – December 2016
- Freight Transport Association best practice guide to inspection of Hackney Carriage and Private Hire Vehicles – August 2012
- Guidance issued by the Disclosure and Barring Service
- Information Commissioners Office CCTV Code of Practice – 2017
- BPG1 - Transporting People Seated in Wheelchairs - 2013

- Benchmarking with other Authorities
- Consultation with Taxi Trade

Under Section 177 (4) of the Policing and Crime Act 2017 Licensing Authorities must have regard to the Department for Transport Statutory Taxi and Private Hire Vehicle Standards. In drawing up this policy the Licensing Authority has thoroughly considered all aspects of the above guidance. The revised policy was considered by the Development and Licensing Committee on 19th July 2022.

In addition to the Department for Transport Statutory Taxi and Private Hire Vehicle Standards the Licensing Authority has also fully considered the Institute of Licensing document Guidance on Determining the Suitability of Applicants and Licensees in the Hackney and Private Hire Trades and has used this as the basis for Appendix A of this document (Hackney Carriage and Private Hire Licensing Criminal Convictions Policy).

Nothing in this policy document should be regarded or interpreted as an indication that any requirement of licensing or other law may be overridden.

1. Introduction

- 1.1 This Policy is written pursuant to the provisions of the Town Police Clauses Act 1847, Town Police Clauses Act 1889, Local Government (Miscellaneous Provisions) Act 1976, as amended, Transport Acts of 1980 and 1985, which places on The Council the duty to carry out their licensing functions in respect of hackney carriages and private hire vehicles.
- 1.2 It is recognised that other legislation exists which impacts on taxi licensing, such as the Equality Act 2010 and therefore, aspects of this Policy pay regard to these additional legislative requirements.
- 1.3 It is intended that the Policy will take effect from 24 January 2023.
- 1.4 The Policy relates to hackney carriage and private hire licensing of drivers, vehicles and operators.
- 1.5 The purpose of this Policy is to assist the Licensing Authority in reaching a decision on any particular application, and in setting out those matters that are normally taken into account. Additionally, the document seeks to provide clear advice for licence holders in terms of the standards expected, and also to provide general advice to service users and the general public.
- 1.6 The Policy is subject to review every three years. Any major changes to policy made between review periods will be preceded by public consultation.

Licensing Authority Area

2. Licensing Objectives & Related Legislation

2.1 The Licensing Authorities are committed to ensuring the provision of a professional hackney carriage and private hire service, by continued monitoring and improvement of standards and procedures, and seeks to promote the following objectives when considering applications, or when assessing the extension of an existing licence:

- **The safety and health of drivers and the public;**
- **Vehicle safety, comfort and access;**
- **To prevent crime and disorder and to protect the public;**
- **To encourage environment sustainability.**

2.2 In promoting these objectives, considerations such as those set out at paragraphs 2.3 and 2.4 will be taken into account by the Licensing Authority, and applicants and licence holders will be expected to continuously show they can meet or exceed specifications set by the Licensing Authority.

2.3 Safety and Health of Driver and the Public:

- Consideration of history of convictions and cautions;
- Driver training, qualification and performance;
- Health and fitness of applicant for driver licence, or existing licence holder;
- Knowledge of West Devon Borough Council area.

2.4 Vehicle Safety, Comfort and Access:

- Standards of vehicle appearance and comfort;
- Use and location of ranks;
- Provision of disabled facilities;
- Provision for all age groups;
- Provision of safe and comfortable premises for customers to use if applicable.

2.5 To Prevent Crime and Disorder and to Protect the Public:

- Vetting, qualification, training and monitoring of licence holders;
- Operating rules and disciplinary processes;
- Measures to prevent noise nuisance from taxi activities;
- Commitment to work with Licensing Authority, Police and other statutory authorities.

2.6 The Licensing Authority is aware that applying licensing requirements which are unduly severe may unreasonably limit the supply of taxi and private hire services, and can lead to negative safety implications. Therefore, the Licensing Authority has considered each of its licensing requirements in relation to the proportion of risk it aims to address.

2.7 The Licensing Authority also recognises that the licensing function is only one means of securing the delivery of the above objectives. The Licensing Authority will therefore continue to work in partnership with other relevant agencies, such as the Police, Crime & Disorder Partnerships and the Vehicle and Operator Services Agency (VOSA) towards the promotion of the objectives.

2.8 In undertaking its licensing function, the Licensing Authority will have regard to the following legislation:

- Town and Police Clauses Act 1847
- Town Police Clauses Act 1889
- Transport Act 1980 & 1985
- Road Traffic Acts
- The Local Government (Miscellaneous Provisions) Act 1976, as amended
- Environmental Protection Act 1990
- Health Act 2006
- The Smoke-free (Premises and Enforcement) Regulations 2006
- The Smoke-free (Vehicle Operators and Penalty Notices) Regulations 2007
- The Equality Act 2010
- The European Convention on Human Rights, which is applied by the Human Rights Act 1998
- The Race Relations Act 1976, as amended by the Race Relations (Amendment) Act 2000
- The Rehabilitation of Offenders Act 1974 (Exceptions) (Amendment) Order 2002

2.6 The Licensing Authority will also have regard to other legislation, strategies, policies and a range of guidance in its decision-making.

3. Consultation

3.1 Before determining this Policy in 2018 the Licensing Authority consulted with numerous persons and organisations including the following:

- Taxi Trade within the West Devon area

- Taxi Trade Representative/s
- Department for Transport (including VOSA)
- Devon County Council Highways Transport Services
- Driving Standards Agency
- Chief Officer of Police, Devon & Cornwall Constabulary
- Town and Parish Councils in the West Devon Borough Council Area
- Citizens Advice Bureau
- Age UK
- Local and National Representatives of Child Safety Groups
- Living Options Devon
- Local and National Representatives of Disability Groups
- Home Office

3.2 Consultees were permitted to make representations in writing or via electronic means e.g. email response. All consultation responses have been taken into account when finalising the policy.

3.3 The Policy was amended in October 2022 following a thorough review of the policy against the Department for Transport Statutory Taxi and Private Hire Vehicle Standards.

4. Departure from Policy

4.1 In exercising its discretion in carrying out its functions, the Licensing Authority will have regard to this Policy and the objectives set out within. However, notwithstanding this Policy, the Licensing Authority will consider each application and enforcement action on its own merits.

4.2 Where it is necessary for the Licensing Authority to depart significantly from this Policy, clear and substantive reasons for doing so will be given. Such a decision will not set a precedent for other applications of a similar nature.

PART ONE – Hackney Carriage and Private Hire Drivers

5. Drivers' Licensing Requirements

5.1 Sections 51 and 59 of the Local Government (Miscellaneous Provisions) Act 1976 require that a district council will not grant a licence to drive a private hire or hackney carriage vehicle unless they are satisfied that the applicant is a 'fit and proper person' to hold a driver's licence.

5.2 In assessing the various information collected in relation to the 'fit and proper' status of an applicant or licence holder, the Licensing Authority will apply the following test:

"Would the decision maker(s) charged with the ability to grant a licence, without any prejudice, and based on the information before you, allow a person for whom you care, regardless of their condition, to travel alone in a vehicle driven by this person at any time day or night"?

5.3 If on the balance of probabilities, the answer to the question is 'no' the individual should not hold a licence. The wording of this test originates from paragraphs 5.12 & 5.13 (fit and proper test) of the Department for Transport Statutory Taxi and Private Hire Vehicle Standards.

5.4 When determining whether a person is "fit and proper", the Licensing Authority will consider the applicant's knowledge of the local area and matters related to the work of a licensed driver; their driving experience; driving qualifications; medical fitness; criminal record; previous history as a licensed driver or operator; any other matter considered relevant to the protection of the public or driver. In addition, the Licensing Authority may also consider further information from other sources, including the Police, other Licensing Authorities and Statutory Agencies.

5.5 A driver will be required to maintain their ability to be a 'fit and proper person' while licensed and must report any driving offences, changes to medical conditions, arrest and release, charge, conviction or caution within 48 hours.

5.6 If the Licensing Authority suspects that a driver may no longer meet the standards required, Officers may need to conduct further enquiries to verify any information provided as to the fitness of a person to hold a licence. By submitting an application for a licence or holding a licence, the applicant gives their consent to the release of data where necessary.

5.7 Applicants should note that to make a false statutory declaration is a serious criminal offence, punishable upon conviction by imprisonment for a term not exceeding two years or to a fine to be decided by the court or both. This statutory declaration may in certain circumstances, be forwarded to the police for examination.

5.8 The Licensing Authority issues a dual Hackney Carriage and Private Hire driver licence to give the holder the flexibility to drive either type of vehicle. Licence holders are required to adhere to any conditions or byelaws that are relevant to the work they are carrying out at any time, which will be dependent on the licensed vehicle being used.

6. Driver Knowledge and Proficiency

6.1 Hackney carriage and private hire drivers must hold a valid full UK driving licence (licence issued in accordance with Part III of the Road Traffic Act 1972 (as amended))

and this licence must have been held for no less than 12 months at the time of application.

- 6.2 An applicant who meets the licensing requirements by benefit of an acceptable non-UK driving licence must obtain a full UK driving licence within 12 months of issue of the Hackney Carriage/Private Hire Driver Licence.
- 6.3 Hackney Carriage and Private Hire drivers are expected to have a good working knowledge of West Devon and the surrounding area, as well as the Highway Code and relevant legislation. Applicants will be tested on their knowledge of the above and must pass a test to a set standard. The test will be conducted in English only at the Council Offices. Failure to attend without prior notice will mean forfeiture of any monies paid. Oral tests will only be conducted under exceptional circumstances which can be discussed when initially applying.
- 6.4 Applicants must demonstrate an adequate and reasonable level of spoken English and be able to converse with authorised officers and members of the public. The purpose of the requirement is to ensure that members of the public and drivers are safeguarded by making sure that licensed drivers can communicate and give and understand most instructions. Applicants who cannot demonstrate an adequate or reasonable level of spoken English and/or a suitable qualification will be required to undertake an independent assessment of their spoken English. The procedure for the English assessment is detailed at **Appendix E**.
- 6.5 If the Licensing Authority has concerns that an existing driver cannot demonstrate an adequate or reasonable level of spoken English and/or a suitable qualification may be referred to the Licensing Committee with the recommendation that they undertake an independent assessment of their spoken English.
- 6.6 Hackney carriage and private hire drivers, as a profession, have a responsibility for the safe transportation of fare-paying passengers. Therefore, the Licensing Authority as part of its application procedure requires that an assessment of the drivers' ability must be obtained by all new applicants. Similarly, where an existing licensed driver receives an endorsement/s or penalty points the Licensing Authority may require that person to undertake the same assessment.
- 6.7 The driving assessment is achieved by successful completion of a standard taxi driving assessment, as approved by the Licensing Authority. The test is reflective of modern driving practices; the standard is set at a level suitable for the full driving licence holder, which is therefore of a higher level than the learner driver test.
- 6.8 It is a requirement that all drivers must have completed training on assisting passengers with disabilities, as approved by the Licensing Authority. New drivers must complete the training within 12 months of their licence being granted; currently licensed drivers must present proof of completion of the training with their renewal application. Failure to do so will result in the licence being suspended or not renewed.
- 6.9 As part of the Licensing Authority's commitment to protecting the safety of those most vulnerable in our communities, and recognising the important role that taxi drivers play as eyes and ears within the community there is an additional requirement that all driver renewal applications shall be accompanied by evidence that the applicant has attended a Safeguarding Awareness Workshop relating to Children and Vulnerable Adults.

- 6.10 All new drivers must attend a Safeguarding Awareness Workshop within 12 months of their licence being granted. Failure to do so will result in the licence being suspended or not renewed.
- 6.11 To ensure that training has been completed within the specified timescales, new driver licences will normally be granted for a maximum of one year only. A three year driver licence may be requested upon renewal.
- 6.12 The Licensing Authority, at its discretion, may require specific training to be undertaken by an applicant or a licensed driver where considered suitable.

7. Medical Examination and Exemptions

- 7.1 The Licensing Authority requires that all new drivers complete a medical examination and will require further medical assessments as detailed below. The medical examination will make sure that the applicant/licence holder satisfies all the requirements of the DVLA Group II medical standards of fitness to drive and must be provided before a licence can be granted
- 7.2 The medical assessment may be undertaken by either a Licensing Authority approved medical centre or the driver's own GP surgery. The applicant will be responsible for making sure that their medical records are available to the medical practitioner so that the medical assessment can be completed. A medical certificate in the agreed format must be provided to the Licensing Authority following the assessment, no older than three months at the time of the application being completed.
- 7.3 The requirements for applicants/licensed drivers regarding medical examination are as follows:
- Upon new driver application
 - Every 5 years from the driver's 45th birthday (*in intervening years, licence holders are required to declare that there has been no change in their medical standard*)
 - Every year from the driver's 65th birthday.
 - Or any time as required by the Licensing Authority or medical practitioner
- 7.4 Drivers who suffer from certain medical conditions may be required to provide more frequent medical assessments in relation to the specific medical condition.
- 7.5 Where there is any doubt as to the medical fitness of the applicant, the Licensing Authority may ask the applicant to undertake a further medical examination at a Licensing Authority approved medical centre at the applicant's/licence holder's own expense.
- 7.6 Where there remains any doubt about the medical fitness of the applicant/ licence holder, following the additional assessment described in the previous paragraph, the Licensing Committee will review the medical evidence. They will then make a final decision as to the suitability of the applicant/licence holder to drive a hackney carriage or private hire vehicle in light of the medical evidence available.
- 7.7 All licence holders are required to inform the Licensing Authority of any illness, condition or any other matter that affects their ability to drive.
- 7.8 Exemption from carrying guide, hearing and certain other assistance dogs accompanying disabled persons, can only be sought on medical grounds. Therefore,

applicants will need to show any allergies or phobias by providing medical evidence to the Licensing Authority.

- 7.9 It is important that applications for the exemption are made before taking a medical examination.
- 7.10 If an application for exemption is successful, the Licensing Authority will issue the driver with a Notice of Exemption. This Exemption must be exhibited in the vehicle by fixing it, facing outwards, either on the windscreen or in a prominent position on the dashboard.

8. Disclosure and Barring Service (DBS), Criminal Disclosures, and Certificates of Good Conduct

- 8.1 Due to the nature of their role, Hackney Carriage and Private Hire drivers are included as 'exceptions' from the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975. Therefore, all applicants and licensed drivers must reveal on their application form any caution or conviction, even if it is 'spent' for other purposes. All offences will appear on an Enhanced Disclosure and Barring Service (DBS) certificate. There are certain circumstances where old or minor cautions and convictions may be 'protected' and will not appear on a DBS certificate, more information on this can be found in the 'DBS Filtering Guide' available on the DBS website.
- 8.2 The Licensing Authority requires that all new applicants submit an enhanced DBS check upon application for a Hackney Carriage and Private Hire driver licence, which includes a check of the child and vulnerable adult barring lists. The check must be made through the Licensing Authority's approved electronic DBS checking service
- 8.3 All new applicants and current licence holders must subscribe to the DBS Update Service for the required annual fee as set by the DBS. If the subscription remains up-to-date, the licence holder will not be required to complete another DBS application unless there are changes to their criminal record status
- 8.4 If the applicant or licence holder has subscribed to the 'Update Service', their subscription is up-to-date and written authorisation to do so has been given, the Licensing Authority will be able to access the online Update Service to carry out a 'Status Check'. The status will be checked every six months, but may also be checked at any time while the licence holder is licensed, if there is reason to do so. For example, if there is the reasonable belief that the licence holder has obtained a criminal conviction which has not been notified to the Licensing Authority.
- 8.5 If the subscription lapses, a new DBS application must be completed within one month, including payment of the full DBS application fee. Failure to do so may result in the suspension of the licence. Proof of identity will be required for the enhanced DBS check, the full requirements of which may be found on the DBS website.
- 8.6 Under the Immigration Act 2016, applicants must prove that they have the right to work in the UK, before being granted a licence. Applicants must provide documentary evidence of their immigration status. A full list of acceptable documents will be provided to new applicants, this includes a passport, birth certificate and proof of National Insurance Number where applicable. The Licensing Authority will operate its application procedures in line with guidance issued by the Home Office.
- 8.7 For new driver applications, if you have lived outside of the UK for a continuous period of 6 months or more at any time since your 18th birthday, you must obtain a

Certificate of Good Conduct which must be under 6 months old. A Certificate of Good Conduct (or equivalent) authenticated and translated by the relevant embassy is required. The GOV.UK website provides information about obtaining these certificates, or similar documents from other countries.

- 8.8 Asylum seekers who hold a Home Office issued application registration document together with a positive verification letter from the Home Office's Employer Checking Service stating that the named individual is permitted to work in the UK will be exempt from the requirement to submit a recent certificate of good conduct. We will require to see any Certificate of Good Conduct that you may have regardless of the age of the document.
- 8.9 Failure to inform the Licensing Authority, without delay, of any convictions, cautions and fixed penalty notices during the licensing application and/or licensing period (i.e. once the licence is granted) may result in the application being refused or the licence being suspended or revoked. Similarly, where convictions, cautions or fixed penalty notices are notified, depending on the nature of the incident, this may result in suspension or revocation of the driver licence.
- 8.10 All applicants for the grant/renewal of a licence requiring a DBS check, or by request during the licence period, shall be responsible for the costs of gaining the DBS certificate.

9. DVLA Licence Checking

- 9.1 The Licensing Authority will need an applicant to sign a mandate form in order that a DVLA licence check can be carried out at any time while licensed as a Hackney Carriage and Private Hire driver. This will allow the Licensing Authority to access information relating to DVLA driving licence entitlements and endorsements.
- 9.2 DVLA driving licence records will be checked annually, but may also be checked at any time while the driver is licensed, if there is reason to do so. For example, if there is the reasonable belief that the driver's licence has been endorsed since the previous check.
- 9.3 A licence will not normally be granted to new applicants with more than 6 unspent penalty points on their DVLA driving licence.

10. Relevance of Convictions, Cautions, Fixed Penalties and other relevant information

- 10.1 The guidelines contained in Appendix A (Hackney Carriage and Private Hire Licensing Criminal Convictions Policy), are developed from the 'Institute of licensing – Guidance on determining the suitability of applicants and licensees in the hackney and private hire trades' and the 'Department for Transport Statutory Taxi & Private Hire Vehicle Standards - assessment of previous convictions'..
- 10.2 In assessing whether an applicant or licence holder is a 'fit and proper' person to hold a licence, the Licensing Authority will consider each case on its own merit.
- 10.3 The Licensing Authority will take account of cautions, whether spent or unspent, fixed penalty notices and other information, but only if they are relevant to an application for a licence or impact on the continuance of an existing driver licence. Upon receipt of the DBS check, the Licensing Authority will consider whether any, or all, of the spent convictions have any real relevance to the issue of whether the applicant or licence

holder is a fit and proper person to hold a licence. In certain cases, the matter may be referred to the Licensing Committee for a decision.

- 10.4 The Licensing Authority will have regard to fixed penalties when considering if an applicant is a fit and proper person. Failure to inform the Licensing Authority of any fixed penalty notices obtained during the application or licence period may result in possible refusal of the application or suspension or withdrawal of the licence.
- 10.5 In relation to cautions, the Licensing Authority will have regard to the nature of the incident when considering its relevance to an application or continuance of an existing driver licence.
- 10.6 In relation to previous convictions, the Licensing Authority will have regard to the following:
- Whether the conviction(s) are spent or unspent;
 - The nature of the offence(s);
 - The age of the offence(s);
 - The apparent seriousness, as gauged by the penalty applied.
- 10.7 In general terms, the more recent, serious and relevant to the Licensing Authority's licensing objectives the offence is, the less likely the application will be granted or that an existing licence will be permitted to remain in effect.
- 10.8 A refusal to licence an individual as a driver or to suspend or revoke a driver licence does not automatically mean that that individual cannot be issued or continue to hold a vehicle or private hire vehicle operator licence. The safety and suitability of an individual to hold each licence type will be considered independently of any driver licence refusal/ revocation in light of the information received/ held.
- 10.9 The Licensing Authority will review all applications for new licences against the National Register of Revocations and Refusals. If an applicant has been refused/revoked by another authority, this may not debar an applicant from holding a licence, however the Licensing Authority will give weight to the decision made by that authority in considering the application. Additionally, if an applicant has had another licence refused/revoked which is not declared on an application form, this will raise concerns about the honesty and integrity of the applicant and is likely to lead to refusal.
- 10.10 West Devon Borough Council will record all decisions to refuse and revoke a driver's licence on the National Register, and will provide details of the reasons for each decision to another licensing authority upon receipt of a suitable data protection request.
- 10.11 A decision by the Sub- Committee to refuse or revoke a licence as the individual is thought to present a risk of harm to a child or vulnerable adult, will be referred to the Disclosure and Barring Service (DBS).

11. Grant and Renewal of Driver Licences

New Applications

- 11.1 The Licensing Authority will normally issue a three-year licence unless a reasonable request for a licence of a shorter period is made. The Licensing Authority retain discretion to issue licences of a shorter period if it considers appropriate.

Renewal Applications

- 11.2 The Licensing Authority will normally issue a three-year licence upon renewal, unless a reasonable request for a licence for a shorter period is made. The Licensing Authority retains discretion to issue licences of a shorter period if it considers this to be reasonable given the individual circumstances.
- 11.3 Applications must be made on the specified application form, which is available to download from the Council's website or upon request to the Licensing Team. The Licensing Authority will not accept the application as being served until all prescribed supporting documentation is provided.
- 11.4 Renewal applications will not be accepted more than 2 months before the expiry date of the licence.
- 11.5 Although there is no statutory duty placed on the Council to issue reminders, holders of existing driver licences will be reminded in advance of their licence expiring and the requirement to renew. It is recommended that drivers note their licence expiry date and apply to renew in good time. It remains the licence holder's responsibility to ensure that licences are renewed in time.
- 11.6 As the reminder service is not a statutory requirement, failure to receive a reminder is not a valid reason for not renewing a licence in time or for not supplying the Council with a required document.
- 11.7 Failure to renew a licence before the expiry date will result in the applicant being required to make an application for the grant of a new licence and comply with all the associated requirements of the new application process. If the licence renewal is submitted late as a result of exceptional circumstances it may be accepted. 'Exceptional' in this instance will only apply where failure to renew on time is due to unforeseen circumstances, for example where the applicant has been unable to apply due to an emergency situation.

12. Code of Good Conduct

- 12.1 The Licensing Authority has introduced a Code of Good Conduct for Hackney Carriage and Private Hire drivers, which serves to promote the Licensing Authority's licensing objectives. Failure to meet with these standards may lead to the Licensing Authority determining that a licensed driver is no longer a 'fit and proper' person to hold a licence.
- 12.2 The Code is provided at **Appendix B** and should be read together with the other statutory and policy requirements in this document. By accepting a licence from the Licensing Authority, licensed drivers will be deemed to have read and accepted the Council's Code of Good Conduct, therefore agreeing to follow its contents.

13. Penalty Point System

- 13.1 The introduction of the Penalty Points System is to provide an effective enforcement process for Licensing Officers for Hackney Carriage and Private Hire Driver and Vehicle Licence holders who are found to be in breach of local or national licensing conditions and policies.
- 13.2 The importance of the Penalty Points System is to increase and guarantee the safety and wellbeing of members of the public as well as compliance with legal requirements. The system is only intended to ensure compliance by those licence holders who it is

proved have breached or are in breach of the rules and regulations that they should be obeying.

- 13.3 The system operates in line with penalty points endorsed on a driving licence and that where 12 unspent penalty points are collected this will result in automatic referral to a Licensing Committee. Where a referral is made to a Licensing Committee, it will be that Committee's decision on what further action, if any, should be taken.
- 13.4 The Licensing Committee is an independent body made up of elected councillors who listen to matters about the suitability of a person to hold a licence. The Members are presented facts and evidence about an application for a licence or to decide if a current licence holder is a fit and proper person to hold a licence. The Members will also ask questions of the applicant or licence holder who will be given an opportunity to present his/her case.
- 13.5 A licence holder has the right to appeal against a Licensing Committee decision to the Magistrates Court within 21 days of notification of the Committee's decision.
- 13.6 Where penalty points have been given and the licence holder wishes to appeal, the licence holder may make a formal complaint through the Council's complaint system for further investigation.
- 13.7 Details on when penalty points may be given are found at **Appendix C**.
- 13.8 The issuing of penalty points does not stop the Licensing Authority from taking further enforcement action where there has been a breach of any of the regulations of the Local Government (Miscellaneous Provisions) Act 1976 or the Town Police Clauses Acts

14. Assisting Wheelchair Users

- 14.1 The Licensing Authority encourages the licensing of wheelchair accessible vehicles (WAVs) and have reduced fees for these types of vehicle. Please see **Appendix F** for information on our requirements for WAVs.
- 14.2 Sections 165 and 167 of the Equality Act 2010 make it a criminal offence for drivers of 'designated' taxi and private hire vehicles to refuse to carry passengers in wheelchairs, to fail to provide them with appropriate assistance, or to charge them extra.
- 14.3 The Licensing Authority has a list of designated WAVs, which is available on the council website www.westdevon.gov.uk . Drivers of those vehicles on the list must carry passengers in wheelchairs, provide assistance to those passengers and must not charge them extra. These requirements do not apply to drivers who have a valid exemption certificate and are displaying a valid exemption notice in the set manner. Exemption certificates will only be issued on medical grounds or because the driver's physical condition makes it impossible or unreasonably difficult for the driver to comply with these duties.
- 14.4 Section 165 of the Equality Act 2010 sets out the duties placed on drivers of designated wheelchair accessible taxis and PHVs. The duties are:
- To carry the passenger while in the wheelchair;
 - Not to make any additional charge for doing so;
 - If the passenger chooses to sit in a passenger seat to carry the wheelchair;

- To take such steps as are necessary to make sure that the passenger is carried in safety and reasonable comfort; and
- To give the passenger such mobility assistance as is reasonably required.

14.5 The Act then goes on to define mobility assistance as assistance:

- To help the passenger to get into or out of the vehicle;
- If the passenger wishes to remain in the wheelchair, to help the passenger to get into and out of the vehicle while in the wheelchair;
- To load the passenger's luggage into or out of the vehicle;
- If the passenger does not wish to remain in the wheelchair, to load the wheelchair into or out of the vehicle.

14.6 Wheelchair users who do not wish to travel in their wheelchair should be assisted wherever possible to do so. In which case the wheelchair must be stored securely as luggage. Drivers should offer all reasonable assistance to the wheelchair user to make sure that they are carried safely and in comfort. This is applicable to drivers of all licensed vehicles, not only those designated as WAVs.

15. Duty to carry Guide and Assistance Dogs

15.1 The Equality Act 2010, places a duty on hackney carriage and private hire drivers to carry guide and other assistance dogs. Drivers that cannot carry assistance dogs must get a certificate of exemption confirming that they have permission to refuse on medical grounds. Exemptions cannot be made for anything other than medical conditions.

15.2 Unless such an exemption has been obtained, guide and assistance dogs must be carried in the vehicle and must be allowed to stay with their owner.

15.3 No extra cost may be charged to those travelling with a guide or an assistance dog. A booking cannot be refused due to someone having an assistance dog with them.

16. Smoking

16.1 Smoking in a smoke-free place is banned under the Health Act 2006. A 'smoke-free place' includes a licensed Hackney Carriage or Private Hire vehicle. In the context of the Health Act, smoking relates to the smoking of cigarettes and other tobacco products.

16.2 The driver of a licensed vehicle must not smoke in the vehicle at any time, including when the vehicle is being used for social, domestic and pleasure purposes.

16.3 The driver of a licensed vehicle must not allow any other person or fare-paying passengers to smoke in a licensed vehicle.

16.4 This also includes a ban on electronic inhaler type cigarettes or vaporisers, which mimic the action of smoking, known as 'vaping'

17. Licence Application Tax Check

17.1 From 4 April 2022, licensing authorities are required to carry out checks to make sure applicants are aware of their tax responsibilities or have completed a tax check.

- 17.2 New applicants will therefore be required to confirm on their application form that they are aware of their tax responsibilities, whilst applicants renewing their licence will need to complete a tax check and obtain a tax check code from the HMRC which must be provided on their application form.
- 17.3 The Licensing Authority is not permitted to renew a licence until a valid tax check code has been provided.

PART TWO – Hackney Carriage and Private Hire Vehicles

- 18.2 Vehicles that are smaller than a 'Large Family Car', as stated in their Euro NCAP Safety Rating, may not be licensed to carry passengers in all their seats. This depends upon the space available for passengers and will be judged on a case-by-case basis.
- 18.3 All currently licensed vehicles must fulfil the vehicle requirements and specifications detailed above by 1st January 2024.
- 18.4 All new vehicles must comply with the vehicle requirements from 1st April 2018.

19. Vehicle Proprietor Requirements

- 19.1 On all new and renewal applications, all applicants named as individuals or partners, must provide a basic criminal record check (through Disclosure Scotland) dated within one month of the date of application.
- 19.2 Currently licensed drivers that hold a valid Disclosure and Barring Service (DBS) check do not need to comply with section 19.1 above.
- 19.3 On all new and renewal applications, all applicants, currently named licence holders, partners, directors and company secretary must complete a Hackney Carriage and Private Hire Vehicle Licence Declaration of Convictions form.

- 19.4 All new applicants and current licence holders must inform the Licensing Authority of any arrest and release, charge or conviction they have received at any time (existing licence holders are required to notify the Licensing Team in writing, within a period of 48 hours). These will be considered in line with the Hackney Carriage and Private Hire Convictions Policy, see **Appendix A**.

20. Vehicle Type

- 20.1 The 'European Transport Safety Council: Making Taxis Safer' guidance recommends that Licensing Authorities should consider the Euro NCAP Star Safety Rating when licensing a Hackney Carriage or Private Hire Vehicle.
- 20.2 Only vehicles that have a 4 or 5 star Euro NCAP Star Safety Rating would be considered to be licensed as a Hackney Carriage or Private Hire Vehicle. Please see **Appendix G** for further information on the Euro NCAP Star Safety Rating.
- 20.3 All existing Hackney Carriage or Private Hire Vehicles that do not have a 4 or 5 star Euro NCAP Star Safety Rating may continue to renew their licences until 31st December 2023.
- 20.4 A vehicle that has previously been 'written off' may only be presented for consideration to be a licensed Hackney Carriage or Private Hire Vehicle, if it was a category D or N write off. In these circumstances a high level examination of the vehicle must be undertaken and an engineer's report must be provided to certify the standard of repairs.

21. Imported Vehicles

- 21.1 Imported vehicles up to 10 years old at the time of first GB registration must produce one of the following vehicle type approval certificates:
- European Community Whole Vehicle Type Approval (ECWVTA)
 - National Small Series Type Approval (NSSTA)
 - Individual Vehicle Approval (IVA)

22. Wheelchair Accessible Vehicles (WAVs)

- 22.1 The Licensing Authority encourages the licensing of wheelchair accessible vehicles (WAVs) and have reduced fees for these types of vehicle
- 22.2 The requirement for type approval for factory built WAVs became mandatory in April 2012. Prior to this date, certification was on a voluntary basis. There are four types of certification:
- EC Whole Vehicle Type Approval (ECWVTA)
 - ECSSTA (EC Small Series Type Approval)
 - NSSTA (National Small Series Type Approval)
 - IVA (Individual Vehicle Approval)
- 22.3 For vehicles already holding one of the above Type Approval Certifications after modification:
- a) The ECWTVA (Full M1 or M1 Stage 2 Certification), ECSSTA, NSSTA or IVA certification must be provided. The document must have been issued after the

modifications were made and the DVLA logbook (V5) must have been issued or updated after modification.

- b) Documentation concerning the vehicle conversion should be obtained from the organisation that converted the vehicle where possible.
- c) The vehicle must go through a physical inspection at a VOSA approved vehicle testing station to identify and assess the condition of the modifications made to the vehicle. This is in addition to the standard Vehicle Inspection Test and MOT requirement.

22.4 For vehicles without Type Approval after modification:

- a) Documents with details about the vehicle conversion or alteration from the organisation that converted the vehicle must be provided. This is to identify what changes have been made and when they were made.
- b) Certificate of Conformity from the original manufacturer (e.g. Citroen, Peugeot) this may be found by contacting the company directly or through a local dealership. This gives an overview of the vehicle in its original state and helps in identifying what changes have been made.
- c) Voluntary IVA certification, this can be found through the Driver and Vehicle Standards Agency (DVSA.) In line with DVSA recommendations, applicants must get 'Voluntary IVA' certification under class P (Personal Import) and (if fitted with a Disabled access and seating positions) class D (Disabled persons vehicle). The tests have to be taken under the Voluntary scheme because registered vehicles cannot be tested under a statutory test. Once Voluntary IVA certification is issued, the DVLA V5 logbook must also be updated to recognise the changes.
- d) The vehicle must go through a physical inspection at a VOSA approved vehicle testing station to assess the condition of the changes made to the vehicle. This is in addition to the standard Vehicle Inspection Test and MOT requirement.

22.5 Please see **Appendix F** for further information on our requirements for Wheelchair Accessible Vehicles.

23. Vehicle Passenger Lifts and Platforms

23.1 Vehicle passenger lifts and platforms come in a number of styles and designs to suit different applications and types of vehicles, including motorised 'tail lifts'.

23.2 The owner of the vehicle should carry out a comprehensive risk analysis to establish any limitations that may need to be placed on the use of a lift. This risk analysis should take into account the wheelchair user's requirements, the type and weight of the wheelchair and the type and capacity of the lift and vehicle. Contact between users and wheelchair service providers, before journeys are taken, should provide the required details of combined weight for a wheelchair and user. A risk management plan should then be made to reduce and manage risks for everyone.

23.3 Vehicle passenger lifts are regulated by the Lifting Operations and Lifting Equipment Regulations 1998 (LOLER). Such devices must comply with statutory regulations. An appropriate and current LOLER certificate must be provided before the vehicle may be licensed.

- 23.4 If such a device is fitted to a currently licensed vehicle, the vehicle shall not be used as a licensed vehicle until the above requirements are met, a Voluntary IVA will be needed in order to assess the alteration to the vehicle.
- 23.5 Regard should be given to the BPG1 Transportation of People Seated in Wheelchairs (2013), Guidance on the Safe Transportation of Wheelchairs (2001) and where relevant the Guidance on the Safe Use of Wheelchairs and Vehicle-Mounted Passenger Lifts (2001).

- 25.3 Tinted film is not allowed and where currently licensed vehicles have had a 'tinted film' fitted after being licensed, the film must be removed.
- 25.4 Tint may only be added to windows, where it is in line with the manufacturer's original standard. This may be when a repair is required or where tint has been removed by a previous owner. In these circumstances permission must be sought from the Licensing Authority prior to carrying out the work and if approved the above paragraph will not apply.

31. CCTV

- 31.1 The Licensing Authority supports the installation of CCTV systems in licensed Hackney Carriage and Private Hire Vehicles, where the system installed meets the requirements of the Data Protection Act 1998 and the Information Commissioner's Code of Practice.
- 31.2 The Data Protection Act 1998 controls the holding and processing of personal information of living individuals including information contained in or related to images captured using CCTV.
- 31.3 Under the Data Protection Act 1998, the vehicle licence holder is the data controller for any CCTV images caught on cameras in their vehicles which can be used to identify an individual. The licence holder must make sure that all CCTV images that can be used to identify an individual are captured on camera, used, stored and released in line with the data protection principles.
- 31.4 Signs must be displayed within the vehicle explaining that CCTV is in operation, including the purpose of the system and contact details. Other than in exceptional circumstances any sound recording function on the CCTV system should be disabled. Further guidance is available in the Information Commissioner's Office (ICO) Code of Practice.
- 31.5 Vehicle licence holders that have CCTV installed in their vehicles must notify as a data controller to the ICO and pay an annual fee.
- 31.6 The Data Protection Act 1998 allows for CCTV images which can be used to identify an individual to be handed over for the prevention of detection of crime, the prosecution or apprehension of offenders or where the disclosure is required by law.  - c) All vehicles which have CCTV systems must display signs in prominent positions advising passengers that a CCTV system is in operation, reasons for operation and contact details.
 - d) Drivers should position cameras within the vehicle in suitable places, as a poorly positioned camera may record inappropriate imagery.
 - e) Cameras must be fixed and not able to be moved. This will prevent accidental recording of inappropriate material.
 - f) Cameras and storage units must be secured to prevent tampering and vandalism by customers.
 - g) Before installing CCTV within a licensed vehicle, drivers and proprietors are advised to familiarise themselves with the Information Commissioner's Code of Practice and the requirements of the Data Protection Act 1998. A copy of the Code of Practice can be obtained from the ICO website: www.ico.org.uk.
- 31.8 Information relating to any CCTV systems installed in licensed vehicles must be detailed on the vehicle licence application form and will be checked as part of the Council's approved vehicle test.

32. Towing Trailers

- 32.1 Licensed hackney carriages and private hire vehicles may tow trailers, providing it is a pre-arranged journey where passengers' luggage cannot be safely stored within the vehicle.
- 32.2 The trailer must be roadworthy at all times, fulfil all requirements of the current Road Traffic legislation (including speed restrictions applicable to trailers) and the towing weights stated by the vehicle's manufacturer.
- 32.3 The vehicle insurance must include cover for towing a trailer for hire and reward and the driver must hold the appropriate licence category on their DVLA driving licence to tow a trailer.
- 32.4 An inspection of the trailer must be undertaken by a VOSA approved testing centre as part of the specified vehicle's Certificate of Compliance inspection (see section 25 of this document).
- 32.5 Approval must be given by the Licensing Authority, before the use of the trailer. Once agreed an additional licence plate will be issued which must be fixed to the rear of the trailer whenever the trailer is towed by the licensed vehicle. There is an additional fee for the issue of a licence plate for a trailer.
- 32.6 Please see **Appendix H** for further information on the requirements for towing trailers.

33. Emissions

- 33.1 To help reduce their environmental impact, all hackney carriages stood at the rank should not have their engines running unnecessarily while waiting for a fare. Exceptions would be for the purposes of demisting the vehicle in order to achieve all round visibility to safely leave the taxi rank or for heating purposes on excessively cold days.
- 33.2 Also, in line with guidelines produced by the National Institute for Health and Care Excellence (NICE), hackney carriage and private hire vehicles should not keep their engines running unnecessarily while waiting elsewhere, particularly where vulnerable groups meet, such as outside schools, hospitals and care homes. Exceptions would be for the purposes of demisting the vehicle in order to move on safely or, in the interests of passenger comfort, for heating purposes on excessively cold days.
- 33.3 The Licensing Authority encourages the use of vehicles which use cleaner technology. Ultra-Low Emission Vehicles (i.e. is a vehicle that produces less than 75g/km of CO₂) have reduced licence fees.

34. Dual Plating

- 34.1 Any vehicle that is licensed with another Licensing Authority as a hackney carriage or private hire vehicle cannot be licensed.
- 34.2 Vehicles found to be licensed with another Licensing Authority will have their vehicle licence automatically revoked.

- 35.2 All hackney carriage owners must make sure that records are maintained for all pre-booked work carried on both within and outside the boundary of West Devon. Such records must be made as soon as a booking is received and be made available to an authorised officer upon request. Records must be kept for 6 months after the booking was made. The following details should be included:
 - a) Date and time of booking
 - b) Name of customer
 - c) Details of booking – pick-up and drop-off point
 - d) Driver's name and licence number

36. Duty to carry Guide and Assistance Dogs

37. Fire Extinguishers

- 37.1 The Licensing Authority recommends that a fire extinguisher is carried in licensed hackney carriage and private hire vehicles to help tackle minor incidents where appropriate and that the extinguishers are kept in a position to be readily available for use if the need arises. The Licensing Authority advises that any driver that carries a

fire extinguisher should be trained in how to use it before attempting to use it to put out a fire.

- 37.2 The Licensing Authority recommends that drivers evacuate themselves and their passengers from the vehicle immediately and contact the emergency services for anything other than a minor incident.
- 37.3 Please contact the Licensing Team for further information on the appropriate type of fire extinguisher and recommended training in the use of fire extinguishers.

38. First Aid Kits

- 38.1 The Licensing Authority recommends that a first aid kit is carried in licensed hackney carriage and private hire vehicles for use on minor injuries or illnesses for both themselves and their passengers. The Licensing Authority advises that any drivers carrying first aid kits should be appropriately trained in first aid before administering any care to their passengers.
- 38.2 The Licensing Authority recommends that drivers contact the emergency services immediately in the event of a medical emergency.
- 38.3 Please contact the Licensing Team for further information on the recommended level of first aid training.

39. Licence plate exemptions for Private Hire Vehicles

- 39.1 It is possible to apply for an exemption from the requirement to display the vehicle licence plate on a Private Hire Vehicle, depending upon the nature of the business. Plate exemption will only be granted where there is a genuine operational reason and business requirement and where the safety of the public will not be affected.
- 39.2 Where a vehicle is exempt from the need to display an external licence plate, the vehicle will also be exempt from the need to display the window stickers.
- 39.3 An exemption can be requested by completing the appropriate application form and providing details of the vehicle in addition to clear reasons for the request, written proof of contracts and any other documentary evidence in support of the application showing that the vehicle will be used for 'executive work'. Each exemption is for one specific vehicle only and if approved the appropriate fee is payable and must be requested annually.
- 39.4 The following minimum requirements must be met before an exemption certificate will be issued:-
- The vehicle must be used for account work only with written contracts (no cash jobs).
 - The vehicle must be of an executive type.
- 39.5 Once an exemption certificate has been granted, the vehicle licence holder must make sure that:-
- a) The private hire licence plate must be kept within the vehicle at all times and be made available for inspection;

- b) The exemption certificate must be carried in the vehicle at all times and must be produced upon request to an authorised officer of the Licensing Authority or any Police Officer.
 - c) While driving the exempted vehicle, the driver will not need to wear the Private Hire driver's identification badge, but must have it available for immediate inspection by an authorised officer of the Licensing Authority or any Police Officer.
 - d) The owner must notify the Licensing Authority in writing of any change in use of the vehicle.
 - e) The exempted vehicle must not be used for any other purposes than for executive use.
 - f) The exemption will end on selling or transferring the vehicle to another party. The person holding the exemption must inform the Licensing Authority of the sale/transfer of ownership in writing and must provide details of the new owner. The exemption certificate must be returned to the Licensing Authority. The private hire vehicle identification plate must also be returned if the vehicle is sold to an operator which is licensed by a different Licensing Authority.
- 39.6 Whether or not an exemption certificate is granted, the first certificate will expire on the same day as the expiration of the vehicle's private hire licence, unless it is otherwise surrendered or revoked. Any renewed exemption certificate will last for a period that falls in line with the vehicle's private hire licence, unless the certificate is surrendered or revoked.

40. Stretch Limousines and Specialist Vehicles

- 40.1 Section 48 of the Local Government (Miscellaneous Provisions) Act 1976 states that a District Council shall not grant a licence unless they are satisfied that the vehicle is suitable in size, type and design for use as a Private Hire vehicle not of such design and appearance as to lead any person to believe that the vehicle is a Hackney Carriage, in a suitable mechanical condition, safe and comfortable and that there is in force in relation to the use of the vehicle a policy of insurance. For the purposes of this policy and licence conditions a stretch limousine shall be defined as follows:

A motor vehicle that has been lengthened by the insertion of an additional body section and modified by a coachbuilder to contain luxury facilities and fixtures that is capable of carrying up to but not exceeding 8 passengers.

- 40.2 Specialist vehicles that do not meet the requirements of this Policy will be treated individually and application will be put to the Licensing Committee for determination.
- 40.3 The Council will not license these vehicles as Hackney Carriages as their length makes them unsuitable to operate from a taxi rank.
- 40.4 The conditions at **Appendix I** are seen as a good model to make sure the safety of the public and regulated standards for Private Hire operators and to make sure that a minimum standard is set in the licensing of these particular vehicles.

41. Penalty Point System

- 41.1 The introduction of the Penalty Points System is to provide an effective enforcement process for Licensing Officers in respect of Hackney Carriage and Private Hire Driver

and Vehicle Licence holders who are found to be in breach of local or national licensing conditions and policies.

- 41.2 The importance of the Penalty Points System is to increase and guarantee the safety and wellbeing of members of the public as well as compliance with legal requirements. The system is only intended to ensure compliance by those licence holders who it is proved have breached or are in breach of the rules and regulations.
- 41.3 The system operates in line with penalty points endorsed on a driving licence and that where 12 unspent penalty points are collected this will result in automatic referral to a Licensing Committee. Where a referral is made to a Licensing Committee, it will be that Committee's decision on what further action, if any, should be taken.
- 41.4 The Licensing Committee is an independent body made up of elected councillors who will sit to hear matters relating to the suitability of a person to hold a licence. This will involve the members being presented facts and evidence relating to an application for the grant of a licence or to decide if a current licence holder is a fit and proper person to hold a licence. The members will also ask questions of the applicant or licence holder who will be given an opportunity to present his/her case.
- 41.5 Any licence holder has the right to appeal against a Licensing Committee decision to the Magistrates Court within 21 days of notification of the Committee's decision
- 41.6 Where penalty points are administered by an Officer and the licence holder wishes to appeal, the licence holder may make a formal complaint through the Council's complaint system for further investigation.
- 41.7 Details on when penalty points may be given are found at **Appendix C**.
- 41.8 The issuing of penalty points does not stop the Licensing Authority from taking further enforcement action where there has been a breach of any of the regulations of the Local Government (Miscellaneous Provisions) Act 1976 or the Town Police Clauses Acts

PART THREE- Private Hire Operator

42. Operator Licensing Requirements

- 42.1 The Operator shall renew their Operators licence annually or every 5 years, prior to the expiry date of the licence.
- 42.2 All applicants named as individuals or partners, must provide a basic criminal record check dated within one month of the date of application for first licence or renewal, and thereafter to produce a basic DBS disclosure certificate annually.
- 42.3 Existing licence holders that have a valid Disclosure and Barring Service (DBS) check do not need to fulfil section 41.2 above.
- 42.4 On all first and renewal applications, all applicants, current named licence holders, partners, directors and company secretary must complete a Hackney Carriage and Private Hire Vehicle Licence Declaration of Convictions form.
- 42.5 All new applicants and current licence holders must inform the Licensing Authority of any convictions or cautions they have received at any time. These will be considered in line with the Hackney Carriage and Private Hire Convictions Policy, see **Appendix A**.
- 42.6 From 1st April 2023, Operators shall also be required to obtain a basic DBS disclosure certificate for all controllers (call handling and dispatching staff). These certificates must be made available to the Licensing Authority upon request within 7 days and be held for at least 12 months in-line with the record keeping requirements above.
- 42.7 In addition, from 1st April 2023 the Operator must have in place a policy on employing ex-offenders (Relevance of Convictions Policy). This policy must be provided to the Licensing Authority upon request within 14 days. An example policy which Operators may personalise and use as the basis for their own policy can be found on the Councils Licensing webpage (web link).

43. Radio Equipment

- 43.1 The Operator shall be (if applicable) in possession of a licence to transmit issued by the Radio Communications Agency/Department of Trade and Industry. The licence will be displayed on the company premises and a copy given yearly to the Licensing Authority at the time of application/renewal.

44. Insurance

- 46.2 The licence holder must notify West Devon Borough Council, in writing, of any transfers in ownership/additional partners or changes in company name within 7 days of such change taking place.
- 46.3 Any change of operating base address must be notified to the Licensing Office in writing before moving premises. - 48.4 Requests for advertising must be made in writing with a scaled drawing, design or photograph of the proposed advertisement, to the Licensing Department for formal approval before being applied to the vehicle.
- 48.5 Each proposal will be considered on its own merits.
- 48.6 Any new, revised or amended advertisement must be given to the Licensing Manager for formal approval.

- 48.7 Where in the opinion of the Licensing Department the proposed advertisement is thought unsuitable, the applicant may ask for the application to be referred to a Licensing Committee for determination.

51. Controllers

- 51.1 The Operator must keep a legible manual or computerised record detailing the name, address and contact telephone number of every controller (staff that will take bookings or dispatch vehicles) working for the Operator and keep a log of who is controlling every shift and the time periods they are working. The Operator shall be totally responsible for the conduct, appearance and actions of controllers operating under their licence. This record must be accessible at all times for inspection by any authorised Officer or Police Constable.

52. Lost Property

- 52.1 If a driver has found any property accidentally left in their vehicle they must notify their operator who must make every attempt to contact the owner. - (a) Current insurance certificate/cover note for all vehicles accepting work under their Operator's licence, including expiry dates
- (b) Certificates of Compliance (Enhanced MOT) including expiry date. Should the insurance cover for any vehicle working under the Operator's licence be cancelled,

suspended or lapse, or the Certificate of Compliance (Enhanced MOT) expire, without a new valid one being provided, then the vehicle must be immediately stood down. The Licensing Department should be told immediately of this action.

- 53.3 The records shall be kept for a period of 6 months. These records must be accessible at all times for inspection by any authorised officer or Police Constable. Any computer program used must be able to reproduce a printed record.

These records must be available at all reasonable times for inspection by any authorised officer or Police Constable. Any computer program used must be able to reproduce a printed record.

- 54.3 When an operator is in possession of an Operator's licence from more than one licensing authority, then the records of the drivers, vehicles and bookings must be kept separately.

55. Penalty Points

- 55.1 The Operator's Licence is subject to the penalty points system and the licence holder is required to read and comply with the provisions of the system at all times (see penalty points system at section 59 of this document and **Appendix C**).
- 55.2 Special attention should be taken of the following provisions laid down in the Local Government (Miscellaneous Provisions) Act 1976 (LGMPA 1976). Copies of the Act can be found online at www.legislation.gov.uk .

56. Section 46 LGMPA 1976 - Licences

- 56.1 No person shall in a controlled district operate any vehicle as a private hire vehicle without having a current operator's licence.
- 56.2 No person holding a current operator's licence shall in a controlled district operate any private hire vehicle:-
- (a) If the vehicle has not been licensed by the district council; or

(b) If the driver has not been licensed by the district council.

- 56.3 If any person knowingly contravenes the provisions of this section he shall be guilty of an offence.

Note: 3 Licence Rule - To trade legally the three private hire licences (Operator, Driver and Vehicle) must be issued by the same Licensing Authority i.e. West Devon Borough Council

57. Section 56 LGMPA 1976 - Procedure/Contract and Records

- 57.3 Every licenced Operator shall keep such records as the Council may, by conditions appended to the grant of the licence, prescribe of the particulars of any private hire vehicle operated by him/her and shall produce the same on request to any authorised officer of the Council or to any constable for inspection.
- 57.4 If any person without reasonable excuse contravenes the provisions of this section he shall be guilty of an offence.

58. Section 62 LGMPA 1976 - Suspension, Revocation and Refusal of an Operator's Licence

- 58.1 The District Council may suspend or revoke or refuse to renew an operator's licence on any of the following grounds:-
- (a) Any offence under non-compliance with the provisions of the Local Government (Miscellaneous Provisions) Act 1976;
 - (b) Any conduct on the part of the operator which appears to the District Council to render him unfit to hold an operator's licence;
 - (c) Any material change since the licence was granted in any of the circumstances of the operator on the basis of which the licence was granted; or
 - (d) Any other reasonable cause.

59. Section 73 LGMPA 1976 - Obstruction of Authorised Officers

- 59.1. Any person who:-
- (a) Wilfully obstructs an authorised officer or constable acting in pursuance of this Act;- or
 - (b) Without reasonable excuse fails to comply with any requirement properly made to him by such officer or constable; or

(c) Without reasonable cause fails to give such an officer or constable so acting any other assistance or information which he may reasonably require of such person for the purposes of the performance of his functions under this part of the Act or the Act of 1847; shall be guilty of an offence.

- 59.2 Section 77 of the Local Government (Miscellaneous Provisions) Act 1976 provides a right of appeal to a Magistrates Court in respect of any requirement, refusal or any other decision of a District Council against which a right of appeal is conferred by the Act. A person wishing to exercise their right under this provision should make representation with 21 days of the date of the licence to the Magistrates Court.

60. Penalty Points System

- 60.1 The introduction of the Penalty Points System is to provide an effective enforcement process for Licensing Officers in respect of Hackney Carriage and Private Hire Driver and Vehicle Licence holders, as well as Private Hire Operators who are found to be in breach of local or national conditions and policies relating to the licensing functions.
- 60.2 The importance of the Penalty Points System is to increase and ensure the safety and wellbeing of members of the public as well as compliance with legal requirements. The system is only intended to ensure compliance by those licence holders who it is proved have breached or are in breach of the rules and regulations.
- 60.3 The system operates in line with penalty points endorsed on a driving licence and that where 12 unspent penalty points are accumulated this will result in automatic referral to a Licensing Sub-Committee. Where a referral is made to a Licensing Committee, it will be that Committee's decision on what further action if any should be taken.
- 60.4 The Licensing Committee is an independent body made up of elected councillors who will sit to hear matters relating to the suitability of a person to hold a licence. This will involve the members being presented facts and evidence pertaining to an application for the grant of a licence or to decide if a current licence holder is a fit and proper person to hold a licence. The members will also ask questions of the application or licence holder who will be given an opportunity to present his/her case.
- 60.5 Any licence holder has the right to appeal against a Licensing Committee decision to suspend, revoke or refuse to renew an operator licence to the Magistrates Court within 21 days of notification of the Committee's decision.
- 60.6 Where penalty points are administered by an Officer and the licence holder wishes to dispute the matter, the licence holder may submit a formal complaint through the Council's complaint system for further investigation.
- 60.7 Details on when penalty points may be given are found at **Appendix K**.
- 60.8 The issuing of penalty points does not preclude the Licensing Authority from taking further enforcement action where there has been a breach of any of the regulations of the Local Government (Miscellaneous Provisions) Act 1976 or the Town Police Clauses Acts

APPENDIX A

Hackney Carriage and Private Hire Licensing Criminal Convictions Policy

1. Introduction

- 1.1 The purpose of this policy is to provide guidance on the criteria taken into account by the Licensing Authority when deciding whether or not an applicant or an existing licence holder is a fit and proper person to hold a hackney carriage and/or private hire driver or operator licence.
- 1.2 The prime aim of the licensing authority is to protect the safety of the public. The licensing authority is concerned to ensure:
- That a person is a fit and proper person
 - That the person does not pose a threat to the public
 - That the public are safeguarded from a dishonest person
 - The safeguarding of children, young persons and vulnerable adults
- 1.3 This policy provides guidance to any person with an interest in taxi and private hire licensing. In particular, but not exclusively:
- Applicants for drivers' licences
 - Existing licensed drivers whose licences are being reviewed
 - Licensing Officers
 - Members of the licensing committee/ panel (or other relevant decision making body)
 - Magistrates hearing appeals against local authority decisions
- 1.4 Where officers under the Council's Scheme of Delegation, have powers to grant licences, they will use these guidelines when making a decision to grant a licence. In all other cases, applications for licences will be referred to the licensing committee/panel (or other relevant decision-making body). While officers and the committee/panel will have regard to the guidelines contained in the policy, each case will be considered on its individual merits and, where the circumstances demand, the committee/officer may depart from the guidelines.
- 1.5 The guidelines are developed from the 'Institute of licensing – Guidance on determining the suitability of applicants and licensees in the hackney and private hire trades' and the 'Department for Transport Statutory Taxi & Private Hire Vehicle Standards - assessment of previous convictions'. In assessing the various information collected in relation to the 'fit and proper' status of an applicant or licence holder, the Licensing Authority will apply the following test:
- "Would the decision maker(s) charged with the ability to grant a licence, without any prejudice, and based on the information before you, would you allow a person for whom you care, regardless of their condition, to travel alone in a vehicle driven by this person at any time of day or night?"*
- 1.6 If on the balance of probabilities, the answer to the question is 'no' the individual should not hold a licence.

- 1.7 The wording of this test originates from paragraphs 5.12 & 5.13 (fit and proper test) of the Department for Transport Statutory Taxi and Private Hire Vehicle Standards.

2. General policy

- 2.1 The Licensing Authority will consider each case on its own merits, and applicants/licensees are entitled to a fair and impartial consideration of their application/licence.
- 2.2 A caution is regarded in exactly the same way as a conviction.
- 2.3 Fixed penalties and community resolutions will also be considered in the same way as a conviction.
- 2.4 Matters which have not resulted in a criminal conviction (whether that is the result of an acquittal, a conviction being quashed, decision not to prosecute or an investigation which is continuing where the individual has been bailed) can and will be taken into account by the licensing authority. In addition, complaints where there was no police involvement will also be considered and matters that amount to criminal behaviour but which have not resulted in conviction will also be taken into account.
- 2.5 In the case of any new applicant who has been charged with any offence and is awaiting trial, the determination will be deferred until the trial has been completed or the charges withdrawn. The Licensing Authority may, at its discretion, revoke an existing driver's licence where it considers it necessary to do so while awaiting an investigation by either the Licensing Authority or the police. This decision will only be taken where it is thought necessary in the interest of public safety.
- 2.6 In all cases, the Licensing Authority will consider the conviction or behaviour in question and what weight should be attached to it, and each and every case will be determined on its own merits, and in the light of these guidelines.
- 2.7 Any offences committed, or unacceptable behaviour reported whilst driving a hackney carriage or private hire vehicle, concerning the use of a hackney carriage or private hire vehicle, or in connection with an operator of a private hire vehicle will be viewed as aggravating features, and the fact that any other offences were not connected with the hackney carriage and private hire trades will not be seen as mitigating factors.
- 2.8 As the Licensing Authority will be looking at the entirety of the individual, in many cases safety and suitability will not be determined solely by a specified period of time having elapsed following a conviction or the completion of a sentence. Time periods are relevant and weighty considerations, but they are not the only determining factor.
- 2.9 In addition to the nature of the offence or other behaviour, the quantity of matters and the period over which they were committed will also be considered. Patterns of repeated unacceptable or criminal behaviour are likely to cause greater concern than isolated occurrences as such patterns can demonstrate a propensity for such behaviour or offending.
- 2.10 Most applicants or licensees will have no convictions and that is clearly the ideal situation. In relation to other people, it is accepted that human beings do make mistakes and lapse in their conduct for a variety of reasons, and it is further accepted that many learn from experience and do not go on to commit further offences. Accordingly, in many cases an isolated conviction, especially if committed some time ago, may not prevent the grant or renewal of a licence.

- 2.11 It is also important to recognise that once a licence has been granted, there is a continuing requirement on the part of the licensee to maintain their safety and suitability. The Licensing Authority has powers to take action against the holder of all types of licence (driver's, vehicle and operator's) and it must be understood that any convictions or other actions on the part of the licensee which would have prevented them being granted a licence on initial application will lead to that licence being revoked.
- 2.12 Any dishonesty by any applicant or other person on the applicant's behalf which is discovered to have occurred in any part of any application process (e.g. failure to declare convictions, false names or addresses, falsified references) will result in a licence being refused, or if already granted, revoked and may result in prosecution.
- 2.13 As the direct impact on the public varies depending upon the type of licence applied for or held, it is necessary to consider the impact of particular offences on those licences separately. However, there are some overriding considerations which will apply in all circumstances.
- 2.14 Generally where a person has more than one conviction showing a pattern or tendency irrespective of time since the convictions, this will raise serious questions about their safety and suitability. The Licensing Authority is looking for safe and suitable individuals, and once a pattern or trend of repeated offending is apparent, a licence will not be granted or renewed.
- 2.15 Where an applicant/licensee is convicted of an offence or displays inappropriate behaviour which is not detailed in this guidance, the Licensing Authority will take that conviction and behaviour into account and use these guidelines as an indication of the approach that should be taken.
- 2.16 These guidelines do not replace the duty of the Licensing Authority to refuse to grant a licence where they are not satisfied that the applicant or licensee is a fit and proper person. Where a situation is not covered by these guidelines, the Licensing Authority will consider the matter from first principles and determine the fitness and propriety of the individual.
- 2.17 A driver has direct responsibility for the safety of their passengers, direct responsibility for the safety of other road users and significant control over passengers who are in the vehicle. As those passengers may be alone, and may also be vulnerable, any previous convictions or unacceptable behaviour will weigh heavily against a licence being granted or retained.
- 2.18 Where an applicant has been convicted of a criminal offence, the licensing authority cannot review the merits of the conviction.

3. Appeals

- 3.1 Any applicant refused a driver's licence on the grounds that the Licensing Authority is not satisfied he is a fit and proper person to hold such a licence has a right to appeal to the Magistrates' Court within 21 days of the notice of refusal [Local Government Miscellaneous Provisions Act 1976, s 77 (1)].
- 3.2 Any applicant refused an operator licence on the grounds that the Licensing Authority is not satisfied he is a fit and proper person to hold such a licence has a right to appeal to the Magistrates' Court within 21 days of the notice of refusal.

- 3.3 Any licence holder whose licence is suspended or revoked has a right to appeal to the Magistrates' Court within 21 days of the notice of suspension or revocation.

4. Powers

- 4.1 Section 61 and Section 62 of the Local Government Miscellaneous Provisions Act 1976 allow the Licensing Authority to suspend, revoke or refuse to renew a licence if the application/licence holder has been convicted of an offence involving dishonesty, indecency, violence; failure to comply with the provisions of the Town Police Clauses Act 1847; failure to comply with the provisions of Part II of the Local Government (Miscellaneous Provisions) Act 1976; or any other reasonable cause.
- 4.2 The Rehabilitation of Offenders Act 1974 (Exceptions)(Amendment) Order 2002, allows the licensing authority to take into account all convictions recorded against an applicant or the holder of a private hire vehicle or hackney carriage driver's licence, whether spent or not. Therefore the licensing authority will have regard to all relevant convictions, particularly where there is a long history of offending or a recent pattern of repeat offending.
- 4.3 In this policy the term "disqualification" refers to the period served, in order to take account of the fact that a court may reduce the period of disqualification from driving. An applicant must provide evidence in advance to prove that the court agreed a reduction in the period of disqualification.

5. Consideration of disclosed criminal history

- 5.1 Under the provisions of Sections 51, 55, and 59, Local Government (Miscellaneous Provisions) Act 1976, the Licensing Authority is required to make sure that an applicant for the grant or renewal of a hackney carriage and/or a private hire vehicle drivers' licence and/or private hire vehicle operator's licence is a 'fit and proper' person to hold such a licence. However, if an applicant has any convictions, warnings, cautions or charges awaiting trial, the Licensing Authority will look into:
- How relevant the offence(s) are to the licence being applied for
 - How serious the offence(s) were
 - When the offence(s) were committed
 - The date of conviction
 - Circumstances of the individual concerned
 - Sentence imposed by the court
 - The applicant's age at the time of conviction
 - Whether they form part of a pattern of offending
 - Any other character check considered reasonable (e.g. personal references)
 - Any other factors that might be relevant
- 5.2 Existing holders of drivers' licences are required to tell the licensing authority in writing within 48 hours of any arrest and release, charge or conviction or caution for an offence, any anti-social behaviour order, driving disqualification for any period or any receipt of a fixed penalty, imposed whilst their licence is in force.
- 5.3 Applicants can discuss further what effect a caution/conviction may have on any application by contacting the licensing officer in confidence for advice.
- 5.4 The Licensing Authority conducts enhanced disclosures from the Disclosure and Barring Service (DBS) of any applicant for a driver licence. The Licensing Authority

follows the DBS's Code of Practice on the fair use and storage of disclosure information. A copy is available on request.

- 5.5 Applicants applying for the grant or a renewal of a drivers' licence will be required to get an enhanced disclosure at their own expense. The Licensing Authority follows the DBS's Policy on the secure storage, handling, use, retention and disposal of disclosure information, which is available on request.
- 5.6 So that the Licensing Authority receives relevant information as quickly as possible in order to take appropriate and proportionate action to protect public safety, it is the Licensing Authority's policy to require applicants to register for the DBS's update service and to nominate the Licensing Authority to receive the updates. Registration lasts for 1 year and costs £13 per year. Licence holders are expected to provide evidence of continuous registration and nomination throughout the duration of their licence.
- 5.7 More information about the DBS can be found on their website.
- 5.8 The Licensing Authority is also entitled to use other records and information that may be available to it in deciding applications or an entitlement to continue holding a licence. This may include information held by the Licensing Authority or other Licensing Authorities, and information provided by the police.
- 5.9 It is an offence for any person, knowingly or recklessly, to make a false declaration or to omit any material particular in giving information required by the application for a licence. Where an applicant has made a false statement or a false declaration on their application for the grant or renewal of a licence, the licence will normally be refused.

Guidance on the rehabilitation period to be considered following conviction

6. Offences of a violent nature

- 6.1 In relation to single convictions, the following **minimum** time periods should elapse following completion of the sentence (or the date of conviction if a fine was imposed) before a licence will be granted or renewed. This places passenger safety as the priority while enabling past offenders to sufficiently evidence that they have been successfully rehabilitated so that they might obtain or retain a licence.
- 6.2 Unless there are exceptional circumstances a licence will not normally be granted where the applicant has a conviction for an offence such as:
- Murder
 - Manslaughter
 - Manslaughter or culpable homicide while driving
 - Terrorism offences
 - Or any similar offences (including attempted or conspiracy to commit) offences which replace the above
- 6.3 A licence will not normally be granted where the applicant has a conviction for an offence or similar offence(s) which replace the offences below and the conviction is less than 10 years prior to the date of application:
- Arson
 - Malicious wounding or grievous bodily harm which is racially aggravated

- Actual bodily harm which is racially aggravated
- Grievous bodily harm with intent
- Robbery
- Possession of firearm
- Riot
- Assault Police
- Common assault with racially aggravated
- Violent disorder
- Resisting arrest
- Or any similar offences (including attempted or conspiracy to commit) offences which replace the above

6.4 A licence will not normally be granted where the applicant has a conviction for an offence or similar offence(s) which replace the offences below and the conviction is less than 7 years prior to the date of application:

- Racially-aggravated criminal damage
- Racially-aggravated offence
- S5 Public Order Act 1986 offence (harassment, alarm or distress)
- S4 Public Order Act 1986 offence (fear or provocation of violence)
- S4A Public Order Act 1986 offence (intentional harassment, alarm or distress)
- Obstruction
- Criminal damage
- Or any similar offences (including attempted or conspiracy to commit) offences which replace the above

6.5 Where an applicant has a conviction for an offence of violence against the person, or connected with any offence or similar of violence, which replace the offences below, a licence will not normally be granted until at least 10 years have elapsed since the completion of any sentence imposed:

- Common assault
- Assault occasioning actual bodily harm
- Affray
- Or any similar offences (including attempted or conspiracy to commit) offences which replace the above

6.6 A licence will not normally be granted if an applicant has more than one conviction for an offence of a violent nature.

6.7 In the event of a licence being granted, not revoked or suspended, a strict warning both verbally and in writing should be administered.

7. Possession of a weapon

7.1 If an applicant has been convicted of possession of a weapon or any other weapon related offence, this will give serious concern as to whether the person is fit to transport the public.

7.2 A licence will not be granted until at least 7 years have elapsed since the completion of any sentence imposed.

8. Sex and indecency offences

- 8.1 As licensed drivers often carry unaccompanied and vulnerable passengers, the Licensing Authority will take a strong line in relation to applicants or existing licence holders with convictions for sexual offences. All sexual and indecency offences will be considered as serious.
- 8.2 Accordingly, an application will not be granted where the applicant has a conviction for an offence such as:
- Rape
 - Assault by penetration
 - Offences involving children or vulnerable adults
 - Sexual assault
 - Indecent assault
 - Exploitation of prostitution
 - Trafficking for sexual exploitation
 - Possession of indecent photographs, child pornography etc
 - Indecent exposure
 - Soliciting (kerb crawling)
 - Or **any** sex or indecency offence that was committed in the course of employment as a taxi or PHV driver
 - Or any similar offences (including attempted or conspiracy to commit) offences which replace the above
- 8.3 In addition to the above the Licensing Authority will not grant a licence to any applicant who is currently on the Sex Offenders Register.

9. Dishonesty

- 9.1 A licensed PHV or taxi driver is expected to be a trustworthy person. They deal with cash transactions and valuable property may be left in their vehicles. Taxi drivers are required to deal with such property in accordance with the standards set out in Appendix B in relation to lost property. Taxi drivers are required to deposit such property with the police as soon as possible, or to make alternative arrangements as appropriate. PHV drivers must pass lost property to the operator. The widespread practice of delivering unaccompanied property is telling of the trust that business people place in licensed drivers. Furthermore, it is fairly easy for a dishonest driver to deceive the public by demanding more than the legal or agreed fare, etc. Overseas visitors can be confused by our currency and may be vulnerable to a dishonest driver. For all these reasons, a serious view is taken of any conviction involving dishonesty.
- 9.2 In general, a minimum period of 7 years since the completion of sentence should be required before granting a licence. Offences involving dishonesty include :
- theft
 - burglary
 - fraud
 - benefit fraud
 - handling or receiving stolen goods
 - forgery
 - conspiracy to defraud
 - obtaining money or property by deception

- other deception
- taking a vehicle without consent
- any similar offences
- Or any similar offences (including attempted or conspiracy to commit) offences which replace the above

9.3 A licence will not normally be granted if an applicant has more than one conviction for a dishonesty offence.

9.4 Applicants or existing licence holders that are found to have intentionally misled the council, or lied as part of the application process, will not be issued with a licence.

10. Drugs

10.1 A serious view is taken of any drug related offence. The nature and quantity of the drugs, whether for personal use or supply are issues which should be considered.

10.2 Where an applicant has any conviction for, or related to, the supply of drugs, or possession with intent to supply or connected with possession with intent to supply, a licence will not be granted until at least 10 years have elapsed since the completion of any sentence imposed.

10.3 Where an applicant has a conviction for possession of drugs, or related to the possession of drugs, a licence will not be granted until at least 5 years have elapsed since the completion of any sentence imposed.

10.4 If there is evidence of persistent drugs use, misuse or dependency a specialist medical examination (in accordance with DVLA Group 2 medical standards) may be required before the licence is granted. If the applicant was an addict then they would normally be required to show evidence of 5 years free from drug taking after detoxification treatment.

10.5 A licence will not normally be granted if an applicant has more than one conviction for a drugs related offence.

11. Driving offences involving the loss of life

11.1 A very serious view is to be taken of any applicant who has been convicted of a driving offence that resulted in the loss of life.

11.2 Unless there are exceptional circumstances a licence will not normally be granted where the applicant has a conviction for an offence such as:

- Causing death by dangerous driving
- Causing death by careless driving while under the influence of drink or drugs
- Causing death by driving: unlicensed, disqualified or uninsured
- Or any similar offences (including attempted or conspiracy to commit) offences which replace the above

12. Drink driving/driving under the influence of drugs/using a mobile phone while driving

12.1 As licence holders are professional vocational drivers, a serious view is taken of convictions for driving, or being in charge of a vehicle while under the influence of drink

or drugs. A single incident would not necessarily exclude an applicant from continuing on the regaining of their DVLA driving licence but s/he should be warned as to the significant risk to his/her licence status in the event of re-offending. Normally at least 7 years, after the regaining of the driving licence following a drink driving conviction should pass before an application may be considered. If there is any suggestion that the applicant is alcohol or drug dependent, a satisfactory special medical report must be provided before the application can be allowed to proceed.

12.2 Applicants should also be aware of the serious risk posed by driving while using a mobile phone. There is a large body of research which shows that drivers who use a mobile phone suffer physical and cognitive distraction which means they:

- are much less aware of what's happening on the road around them
- fail to see road signs
- fail to maintain proper lane position and steady speed
- are more likely to 'tailgate' the vehicle in front
- react more slowly, take longer to brake and longer to stop
- are more likely to enter unsafe gaps in traffic
- feel more stressed and frustrated

12.3 There is evidence to show that drivers who use a mobile phone have slower reaction times than those who have consumed up to the legal alcohol limit. In light of this, an equally serious view should be taken of convictions for driving while using a mobile phone as for driving under the influence of drink or drugs.

12.4 A licence will not normally be granted if an applicant has more than one conviction for an offence of driving under the influence of drink or drugs or while using a mobile phone.

13. Insurance offences

13.1 A serious view will be taken of convictions of driving or being in charge of a vehicle without insurance. An isolated incident in the past will not necessarily stop a licence being granted provided he/she has been free of convictions for 7 years, however strict warning should be given as to future behaviour.

13.2 A licence will not normally be granted if an applicant has more than one conviction for an insurance related offence.

13.3 An operator found guilty of aiding and abetting the driving of passengers for hire and reward without insurance will normally have their operator licence revoked immediately and be prevented from holding a licence for at least 3 years.

14. Other motoring offences

14.1 As licence holders are professional vocational drivers a serious view is taken of all endorsements on the DVLA driving licence due to motoring offences. All unspent DVLA driving licence endorsements must be declared at the time of application and the Licensing Authority must be notified of any new offences while licensed as a hackney carriage or private hire driver.

14.2 Where an applicant has 7 or more points on their DVLA licence for minor traffic or similar offences, a licence will not be granted until at least 5 years have elapsed since the completion of any sentence imposed.

14.3 Further information on motoring offences and penalty points can be found at Annex A.

15. Licensing offences

15.1 Certain offences under taxi legislation such as plying for hire, overcharging and refusing to carry disabled persons would normally prevent a licence being granted or renewed until a period of 7 years have elapsed since the completion of any sentence imposed.

15.2 A licence will not normally be granted if an applicant has more than one conviction of a licensing related offence.

16. Non-conviction information

16.1 If an applicant has, on more than one occasion, been arrested or charged, but not convicted, for a serious offence which suggests he could be a danger to the public, consideration should be given to refusing the application.

16.2 In assessing the action to take, the safety of the travelling public must be the highest concern.

17. Once a licence has been granted

17.1 If a licence holder's conduct is such that, were they to be applying for a new licence their application would normally be refused, they should expect consideration to be given as to the suspension or revocation of their licence.

17.2 A suspension or revocation of the licence of a driver takes effect at the end of the period of 21 days beginning with the day on which notice is given to the driver. If it appears that the interests of public safety require the suspension or revocation of the licence to have immediate effect, and the notice given to the driver includes a statement that is so and an explanation why, the suspension or revocation takes effect when the notice is given to the driver [Road Safety Act 2006, s 52, 2A&2B].

17.3 A suspension or revocation of the licence of an operator takes effect at the end of the period of 21 days beginning with the day on which notice is given to the operator.

18. Overseas residents

18.1 If an applicant has spent six continuous months or more overseas the licensing authority will expect to see evidence of a criminal record check from the country/countries covering the period.

19. Licences issued by other Licensing Authorities

19.1 Applicants who hold a licence with one Licensing Authority should not automatically assume that their application will be granted by another. Each case will be decided on its own merits.

19.2 Licence holders who are licensed by multiple authorities are expected to inform all such authorities of the authorities that they are licensed by and to advise each authority of any changes in this respect; and should expect those authorities to share information regarding their conduct and to take it into account as appropriate.

20. Summary

- 20.1 To summarise, a criminal history in itself may not automatically result in refusal and a current conviction for a serious crime need not stop an applicant permanently from becoming licensed. As the preceding paragraphs show, in most cases, an applicant would be expected to remain free from conviction for 5 to 10 years, depending on circumstances, before an application can be considered.
- 20.2 Any person who has committed an offence and has to wait before an application is positively considered is more likely to value their licence and act accordingly.
- 20.3 While it is possible that an applicant may have a number of convictions that, individually, meet the above guidelines, the overall offending history must be considered when assessing an applicant's suitability to be licensed. A series of offences over a period of time is more likely to give cause for concern than a single minor conviction. Some discretion can be given if a single offence is declared with relevant information to explain the circumstances, but the prime concern is the protection of the public.

Annex A

1 Principles of the Rehabilitation of Offenders Act 1974 (as amended by the Legal Aid, Sentencing and Punishment of Offenders Act 2012)

- 1.1 Under The Rehabilitation of Offenders Act 1974, criminal convictions can become spent after a certain period of time, and once spent, for many purposes, can be ignored completely.
- 1.2 The possibility of rehabilitation and the length of time before rehabilitation occurs depends on the sentence imposed, and not the offence committed.
- 1.3 Despite the above, the principles of the Act do not apply to applicants for hackney carriage and private hire drivers' licences. This is because the driving of taxis is listed as a "Regulated Occupation" in relation to which questions may be asked as to the suitability of individuals to be granted a licence.
- 1.4 Although the Act does not prevent judicial authorities (inclusive of the Licensing Authority) from taking spent convictions into account; such convictions are only taken into consideration if they are relevant to the issue of whether the applicant is a fit and proper person to hold a licence.
- 1.5 The determination as to whether certain convictions are spent, therefore may be a relevant exercise.
- 1.6 The rehabilitation periods are set out below. For a detailed commentary on the periods of rehabilitation applicable to all sentencing options, reference will need to be made to a specialist textbook on the Act.

2. Sentence Rehabilitation Period

- 2.1 The rehabilitation periods for sentences with additional 'buffer periods' which run from the end date of the sentence are shown in the table below:

Sentence/disposal	Buffer period for adults, this applies from the end date of the sentence.
Custodial sentence over 4 years (excluding serious violent, sexual or terrorist offences)	7 years
Custodial sentence between 1 year and 4 years	4 years
Custodial sentence of under 1 year	12 months

2.2 The following are the rehabilitation periods for sentences that do not have a buffer period and runs from the date of conviction:

Sentence/disposal	Rehabilitation period for adults, this applies from the date of conviction.
Community order	Period of order (or 2 years if no specified end date)
Fine	1 year
Conditional discharge	Period of order
Absolute discharge	None
Conditional caution	3 months or when caution ceases to have effect if earlier
Simple caution	Spent immediately
Compensation order	On the discharge of the order
Relevant orders	Period of the order (or 2 years if no specified end date)

2.3 Once a conviction becomes spent it remains spent even if a person is convicted of other offences.

Hackney Carriage & Private Hire Driver Licensing Application Process

The information below details the Licensing Authority's compulsory requirements for new and renewal of Hackney Carriage and Private Hire driver licence applications. The following is given as guidance only as to the processes followed and documents required. If an applicant has specific queries they should contact the Licensing Team.

Please note that a driver's licence badge issued by West Devon Borough Council will only allow you to drive vehicles that are licensed by West Devon Borough Council.

Please note that as an applicant or driver licensed by West Devon Borough Council, you will be required to visit our Totnes office in person during the application process and on occasion while you hold a licence for the purposes of inspection, production of paperwork or for any other reason.

Applications for new drivers

The application process will involve you meeting a number of requirements at an additional cost. The steps laid out below are a suggestion of how you may wish to continue to gain all documents necessary to make a valid application:

Overview

- Application form
- One passport sized photograph
- Taxi driving test certificate
- Passport, birth certificate, or other proof of entitlement to work in the UK
- Enhanced DBS check through our online service or permission to check the DBS Update Service if applicable
- Overseas criminal record check (Certificate of Good Conduct) issued within the last 6 months – where applicable.
- DVLA driving licence photo card (old style paper licences issued before 1998)
- DVLA check mandate form
- Group II medical certificate issued by the designated medical assessment centre or your own GP within the last 3 months
- Completion of the Licensing Authority Knowledge Test
- Required fee

Step 1:

Hackney Carriage and Private Hire driver application form

This form requires you to detail any previous convictions and medical issues that you may have that may impact on your ability to obtain a licence in agreement with the Licensing Authority's policies. By submitting this information, before completing the other required steps, we are able to give you an early view of whether your application will be successful or not.

As part of our checks we will require you to provide identification to prove your right to work in the UK. As a minimum requirement we will need to see your passport or birth certificate. The Licensing Authority will operate its application procedures in line with guidance issued by the Home Office.

Step 2:

Sit and pass the knowledge test.

The knowledge test assesses your knowledge of the local area, the Highway Code, numeracy and the legislation which is relevant to you as a licensed driver. Tests will normally be held on one day per month at the Council offices in Tavistock. Applicants may arrange to sit the test on an alternative day at South Hams District Council offices in Tavistock if more convenient.

You will need to bring documents to show evidence of your entitlement to work in the UK (passport, birth certificate or other proof of entitlement) and proof of address, with you to your knowledge test. Without these documents you will not be able to sit the test.

We only accept and process applications that have successfully completed these tests. The fee for the test must be paid before the test can be taken. The cost of the test is non-refundable and the same fee is payable to re-sit a failed test.

Step 3:

Apply for Enhanced DBS check and DVLA mandate form

Enhanced DBS checks are taken through an electronic checking service. You will need to provide us with the required identification documents as listed on the DBS website so that the check may be submitted.

The DBS certificate must be presented to us within three months of being issued. You must sign up to the DBS Update Service within **thirty days** of your certificate issue date. If this is not done, you will be required to submit a new DBS check, including payment of the full DBS fee.

If you have any convictions, cautions or fixed penalty notices which fall within the Council's convictions policy, the application will be determined by the Licensing Committee.

A DVLA mandate form must be completed and signed so that we are able to check your DVLA record at any time during your licence period. A licence will not normally be granted to new applicants with more than 6 unspent penalty points on their DVLA driving licence.

Step 4:

Provide Certificate of Good Conduct (where applicable)

If you have lived outside of the UK for a continuous period of 6 months or more at any time since your 18th birthday, you must obtain a Certificate of Good Conduct which must be under 6 months old. A Certificate of Good Conduct (or equivalent) authenticated and translated by the relevant embassy is required. The GOV.UK website provides information about gaining these certificates, or similar documents from other countries.

Asylum seekers who hold a Home Office issued application registration document together with a positive verification letter from the Home Office's Employer Checking Service stating

that the named individual is allowed to work in the UK will be excused from the requirement to submit a recent certificate of good conduct. We will require to see any Certificate of Good Conduct that you may have regardless of the age of the document.

Step 5:

Sit the Taxi driver test as provided by the Licensing Authority approved provider

A certificate showing successful completion of the practical taxi test must be provided. You do not require the wheelchair assessment. You can book your test online at the Red One Driver Training website. If you have any queries regarding this element, you must contact Red One and not the licensing department.

Step 6:

Group 2 Medical Certificate

Contact your own GP or the Council's appointed medical assessment provider to arrange a Group II medical examination. Group II medical guidance can be found online at GOV.UK. The medical assessor must have access to your full medical history for the assessment to be completed.

Step 7:

Passport sized photograph

Provide one passport sized photograph of yourself. It must be in colour and clear. If you wear glasses for driving, you must wear the glasses in your photograph. Get your passport ready (or other proof of entitlement to work in the UK) as well as your full EU or UK driving licence, which you must have held for at least 12 months.

Step 8:

All steps completed

We do not accept incomplete applications under any circumstances.

Once all steps have been completed and information provided, we will contact you on the telephone number or email address given in your application to let you know when the licence has been issued, or if there are any issues with your application. If your application is approved you will be sent your driver licence certificate and identification badge by post.

Applications for renewal of driver licence

Applications for renewals must be received by the Council prior to the expiry date of the licence to make sure that the licence does not lapse, but no more than 2 months before the expiry date.

If a licence lapses, the driver will be required to apply for a new driver licence by meeting all the criteria listed in the previous section relating to applications for new driver licences. If the licence renewal is submitted late as a result of exceptional circumstances it may be accepted. 'Exceptional' in this instance will only apply where failure to renew on time is due to unforeseen circumstances, for example, where the applicant has been unable to apply due to an emergency situation.

Overview

- Application form
- One passport sized photograph (every third year)
- DBS certificate processed through the electronic DBS check provider – **unless signed up to the DBS Update Service**
- Overseas criminal record check (Certificate of Good Conduct) issued within the last 6 months – **where applicable**.
- Copy of DVLA driving licence photo card (old style paper licence issued before 1998)
- DVLA check mandate form (if required)
- Group 2 medical certificate issued by the designated medical assessment centre or your own GP within the last 3 months (if required)
- Required fee

Further details relating to the above requirements may be found in the previous new driver application section.

Unless a new Enhanced DBS check is required or where the driver's 'right to work in the UK' check has not been completed, the renewal application may be submitted by post or handed in to the Council offices. If a new DBS check or 'right to work in the UK' check is required, you will need to contact the Licensing Team to make an appointment.

If the documentation is complete, the application will be accepted. If any of the required documentation is not submitted then the application may not be processed.

The successful completion of this procedure will be indicated by the issue of a Hackney Carriage and Private Hire driver licence.

Suspension / revocation / refusal to renew

The Licensing Authority has the power to suspend, revoke or refuse to renew a licence.

If considered necessary in the interest of public safety, a suspension or revocation may take immediate effect.

 - (d) Applicants who are clearly fluent English speakers will require no further assessment and may proceed with their application in full.
4. The first assessment of all new applicants' level of spoken English, whether on the telephone or in person will be made by a Case Manager. Where in the opinion of the Case Manager the applicant does not have an adequate or reasonable level of spoken English, the applicant will be informed of the spoken English requirement and procedure.
5. Applicants who have difficulty in clearly expressing themselves and who cannot produce a suitable qualification listed above will be referred to the Licensing Specialist who will make a second assessment and if necessary inform the applicant of the requirement to take the spoken English assessment test.

19. At the end of the test the Case Manager will contact the test provider via the website, access the applicant's result, a report will be produced (a copy of which will be provided to the applicant) with a score indicating their overall ability.
20. The test scoring will be set at CEFR Level B2.
21. For licensing purposes, applicants will need to score at least **56** out of **80**. This shows a good use of the English language, where applicants will be able to speak fluently on a range of everyday topics and be able to give and understand most instructions.
22. When passed, the pass certificate will be downloaded direct from the test provider's website the same day and provided to the applicant.
23. Failure to pass the minimum CEFR level B2 (56 out of 80) will require a further test to be taken.
24. There is no right of appeal where the applicant has failed to gain the minimum pass level of 56.
25. Unsuccessful applicants should be given an information sheet with the contacts of local colleges and courses where they may take further study to improve their spoken English. All training will be done at the applicant's own expense.
26. No person may re-sit the test within 28 days of taking a previous test.
27. Returning applicants may show that they have a reasonable standard of spoken English either through the production of a certificate following the successful completion of an accredited spoken English qualification at level 1 or above, or successfully completing the spoken English assessment test detailed above.
28. Applicants choosing to re-take the spoken English assessment test will have to pay the required fee.

APPENDIX F

Wheelchair Accessible Vehicles (WAVs)

The requirement for type approval for factory built WAVs became compulsory in April 2012. Before this date, certification was on a voluntary basis.

There are four types of certification:

EC Whole Vehicle Type Approval (ECWVTA) is based around EC Directives and provides for the approval of vehicles manufactured in large numbers. A Certificate of Conformity is issued and this is accepted throughout the EU without the need for further testing until a standard is updated or your design changes.

ECSSTA (EC Small Series Type Approval) has been created for low volume car producers only, and like full ECWVTA will allow Europe wide sales but with technical and administrative requirements that are more adapted to smaller businesses

NSSTA (National Small Series Type Approval) is a UK national scheme for low volume manufacturers who intend to sell only in the UK. Like ECWVTA, once the design is approved, individual vehicles do not need to be tested.

IVA (Individual Vehicle Approval) is a UK national scheme and the most likely route for those manufacturing or importing single vehicles or very small numbers. Under IVA, vehicles have to be inspected by the Driver and Vehicle Standards Agency (DVSA) in Great Britain or the Driver Vehicle Agency (DVA) in Northern Ireland.

The above approvals are only granted after thorough vehicle testing and inspection.

For vehicles already holding one of the above Type Approval Certifications after modification:

- The ECWVTA (Full M1 or M1 Stage 2 Certification), ECSSTA, NSSTA or IVA certification must be provided. The document and the DVLA logbook (V5) must have been issued or updated after the changes were made.
- Documents concerning the vehicle conversion should be obtained from the organisation that converted the vehicle where possible.
- The proposed vehicle will undergo a physical inspection at one of the vehicle testing garages to identify and assess the condition of the changes made to the vehicle. This is in addition to the standard Vehicle Inspection Test and MOT requirement.

For vehicles without Type Approval after modification:

- Documentation concerning the vehicle conversion or change from the organisation that converted the vehicle must be provided. This is to identify what changes have been made and when they were made.
- Certificate of Conformity from the original manufacturer (e.g. Citroen, Peugeot) this may be obtained by contacting the company directly or through a local dealership. This gives an overview of the vehicle in its pre-modified state and assists in identifying what modifications have been made.

- Voluntary IVA certification, this can be obtained through the Driver and Vehicle Standards Agency (DVSA.) In line with DVSA recommendations, applicants must obtain 'Voluntary IVA' certification under class P (Personal Import) and (if fitted with a Disabled access and seating positions) class D (Disabled persons vehicle). The tests have to be conducted under the Voluntary scheme because registered vehicles cannot be tested under a statutory test. Once Voluntary IVA certification is issued, the DVLA V5 logbook must also be updated to recognise the changes.
- The proposed vehicle will need a physical inspection at a VOSA approved vehicle testing station to identify and assess the condition of the modifications made to the vehicle. This is in addition to the standard Vehicle Inspection Test and MOT requirement.

Vehicle Passenger Lifts and Platforms

Vehicle passenger lifts and platforms come in a number of styles and designs to suit different applications and types of vehicles, including motorised 'tail lifts'.

The vehicle operator should carry out a comprehensive risk analysis to establish any limitations that may need to be placed on the use of a lift. This risk analysis should take into account the wheelchair user's requirements, the type and weight of the wheelchair and the type and capacity of the lift and vehicle. Liaison with users and wheelchair service providers, before journeys are taken, should provide the required details of combined weight for a wheelchair and user. A risk management plan should then be created to lessen and manage risks for all concerned.

Vehicle passenger lifts are regulated by the Lifting Operations and Lifting Equipment Regulations 1998 (LOLER). Such devices must comply with statutory regulations. An appropriate and current LOLER certificate must be provided before the vehicle may be licensed.

If such a device is fitted to a currently licensed vehicle, the vehicle shall not be used as a licensed vehicle until the above requirements are met, a Voluntary IVA will be required in order to assess the change to the vehicle.

General safety guidelines for wheelchair/user transportation

- Wheelchair users should transfer to vehicle seats whenever possible;
- Wheelchair users should not travel with the wheelchair at an angle or facing sideways;
- There should be enough free space around the wheelchair and user to avoid the user making contact with other vehicle occupants, unpadded parts of the vehicle, wheelchair accessories or Wheelchair Tiedowns and Occupant Restraint Systems (WTORS) anchor points;
- Wheelchairs should have their parking brakes applied and their power units switched off during vehicle movement. Powered wheelchairs should not be left in freewheel mode;
- Wheelchairs should not block gangways and exits for other passengers in the vehicle;

- A headrest should be provided for a wheelchair user when travelling in a vehicle where other seated passengers have headrests;
- Grab handles must be fitted in appropriate positions in all passenger access door entrances to help passengers enter and leave from the vehicle while using any steps provided.
- There must be no steps within the passenger compartment.
- All floor areas and passageways between seats over which passengers will be expected to pass must be free of all steps, obstacles or trip hazards and have a slip resistant surface.
- All passenger seats must be provided with a lap and diagonal 3 point seat belt.
- The passenger(s) confined to a wheelchair must be provided with a lap and diagonal 3 point seat belt.
- All seat belts must be fitted to the vehicle with the number of anchorage points suitable to the type of seat belt, all anchorage points must comply with M1 criteria.
- The vehicle must have a minimum seating capacity for 4 passengers with at least one passenger seated in a wheelchair and a maximum of 8 passengers with at least one passenger seated in a wheelchair.
- In vehicles where passengers will be travelling in their wheelchair facing the back of the vehicle, a bulkhead/drivers safety screen should be fitted, and it should be a full width, full height screen fitted directly behind the driver's seat. The upper section of the bulkhead/safety screen should contain a clear vision panel to allow the driver to be able to see a substantial amount of the passenger compartment, which must include vision of all access doors.
- The bulkhead/safety screen should allow communication between the driving and passenger compartments.
- The bulkhead/safety screen should have no gaps that would allow a passenger to reach into the driver's compartment from the passenger compartment.
- The vision panel section of the bulkhead/safety screen should be made of safety glass or any clear material with at least the same impact resistance and safety qualities as that safety glass.
- A lightweight ramp or ramps for the loading of a wheelchair and occupant must be available at all times for use at the nearside rear passenger door for side loading of wheelchairs.
- A ramp or ramps for the loading of a wheelchair and occupant should have a single continuous surface when deployed. For rear loading vehicles, the ramp should be available at all times for use at the rear door.
- A Safe Working Load (SWL) test must be taken with the SWL prominently marked on the ramp. The ramp must be accompanied by documentary evidence of a SWL test.

- An adequate locking device must be fitted to make sure that the ramp/s do not slip or tilt when in use.
- Provision must be made for the ramps to be permanently stored in the vehicle safely when not in use.
- Where there are demountable seats which are removed for the purpose of providing space for wheelchair passengers, these will need specific approval from the Licensing Authority on a case-by-case basis. Fold away seats are allowed, providing they remain attached to the vehicle.

Regard should be given to the BPG1 Transportation of People Seated in Wheelchairs (2013), Guidance on the Safe Transportation of Wheelchairs (2001) and where relevant the Guidance on the Safe Use of Wheelchairs and Vehicle-Mounted Passenger Lifts (2001).

APPENDIX G

Euro NCAP Star Safety Rating

Euro NCAP has created the five-star safety rating system to help consumers, their families and businesses compare vehicles more easily and to help them identify the safest choice for their needs.

The safety rating is determined from a series of vehicle tests, designed and carried out by Euro NCAP. These tests represent, in a simplified way, important real life accident scenarios that could result in injured or killed car occupants or other road users.

While a safety rating can never fully capture the complexity of the real world, the vehicle improvements and the technology brought the past years about by the application of high safety standards have been shown to deliver a true benefit to consumers in Europe and to society as a whole.

The following provides some general guidance as to what safety performance the stars refer to in today's system:

5 stars safety: Overall good performance in crash protection. Well equipped with robust crash avoidance technology

4 stars safety: Overall good performance in crash protection; additional crash avoidance technology may be present

3 stars safety: Average to good occupant protection but lacking crash avoidance technology

2 stars safety: Nominal crash protection but lacking crash avoidance technology

1 star safety: Marginal crash protection

The Licensing Authority's main duty is to protect the public from harm and therefore feel that it is necessary that all vehicles licensed by West Devon Borough Council must have a 4 or 5 star Euro NCAP Safety Rating.

APPENDIX H
